Dear _____,

Thank you for trusting DentTIVA® to provide you the safest and most effective IV sedation available at your Dentist. We are the unparalleled leader in Dentistry IV deep sedation.

We look forward to helping every patient think very positive about seeing the dentist. Many patients clearly see us as the best, and most affordable option compared with surgery centers and hospitals.

To help make your visit to the dentist office the best experience possible, there are forms that we ask you to complete as soon as possible. These include the following:

1. Pre-Anesthesia Questionnaire
2. Informed Consent
3. HIPAA Authorization
4. Pre and Post Anesthesia Instructions

These forms are attached to this letter, or you can print them on line from a computer by going to www.denttiva.com and click on "Patient Forms" in the Navigation Bar near the top of the web page.

Please complete these forms to the best of your ability. An Anesthetist will call you prior to the day of your appointment. He or she will discuss your health history and answer any questions you may have about the information on the forms and your anesthesia. WE REQUIRE THAT THESE FORMS BE BROUGHT WITH YOU ON THE DAY OF YOUR APPOINTMENT. We reserve the right to cancel or postpone your appointment without refunding your deposit if you do not bring your completed forms.

PAYMENT FOR SERVICES:

Your dentist has contracted with DentTIVA® for providing IV anesthesia services.

You do not need to worry about paying a separate anesthesia fee. Our fee is included in the fee your dentist charges.

Insurance: Only in very rare instances will medical insurance pay for dental IV anesthesia no matter your level of anxiety.

If you want to submit your bill as a claim to your medical Insurance company we can provide you with the procedural codes. You will need to contact your Primary Care Physician or Specialist to obtain appropriate diagnosis codes that qualify for anesthesia reimbursement. We no longer submit claims to insurance companies.

We are glad you have decided to use DentTIVA® dental anesthetic services. We look forward to making your dental care possible as you "Sleep for your smile".

Sincerely,

C. Paul Bowen, CRNA, President

CONSENT FOR ANESTHESIA SERVICES

dentTIVA

I,_____ , acknowledge that my doctor has explained to me that I or my child will have an operation, diagnostic, or treatment procedure— medical or dental related. My doctor has explained the risks of the procedure, advised me of alternative treatments, and told me about the expected outcome and what could happen if my condition remains untreated. I also understand that anesthesia services are needed so that my doctor can perform the procedure.

It has been explained to me that all forms of anesthesia involve some risks and no guarantees or promises can be made concerning the results of my procedure or treatment. Although rare, unexpected severe complications with anesthesia can occur and include the remote possibility of infection, bleeding, drug reactions, blood clots, loss of sensation, loss of limb function, paralysis, stroke, brain damage, heart attack or death. I understand that these risks apply to all forms of anesthesia and that additional or specific risks have been identified below as they may apply to a specific type of anesthesia. I understand that the type(s) of anesthesia service checked below will be used for my procedure and that the anesthetic technique to be used is determined by many factors including my physical condition, the type of procedure my doctor is to do, my doctor's preference, and my own preference. It has been explained to me that sometimes an anesthesia technique which involves the use of local anesthetics, with or without sedation, may not succeed completely and therefore another technique may have to be used including general anesthesia.

☐ Deep IV Sedation and General Anesthesia (IV= Intravenous)	Expected Result	Total unconscious state, possible placement of a tube into the nose mouth and windpipe
	Technique	Drug injected into the bloodstream, breathed into the lungs, or administered by other routes
	Risks	Mouth or throat pain, hoarseness, injury to mouth or teeth, awareness under anesthesia, injury to blood vessels, aspiration, pneumonia

☐ Moderate/Conscious IV Sedation (IV= Intravenous)	Expected Result	Total or partial amnesia, reduced anxiety and pain, Intermittent periods of brief unconsciousness Able to follow commands
	Technique	Drug injected into the bloodstream, breathed into the lungs, or administered by other routes
	Risks	An unconscious state, depressed breathing, injury to blood vessels Partial or total memory of the procedure Advancement to General Anesthesia with associated risks.

☐ I understand that my anesthesia may be advanced to DEEP IV SEDATION and GENERAL ANESTHESIA if Moderate IV Sedation is not effective as determined by my doctor or anesthetist.

☐ I prefer that my anesthesia NOT BE advanced to Deep IV Sedation and General Anesthesia and stopping the procedure IF the procedure being performed safely permits me to be awakened.

PRE-ANESTHESIA INSTRUCTIONS-- Before coming to the Dentist office:

1. Notify your DentTIVA® if your have any sudden changes to your health as soon as you become aware. This is especially true for even mild colds or flu-like symptoms.

2. Take your regular medications with sips of water as instructed by your Anesthetist.

3. Arrange for transportation for your return home by a responsible friend.

4. Nothing to eat or drink for at least 8 hours before your appointment, except for your regular medications.

5. Wear loose fitting clothing.

POST ANESTHESIA INSTRUCTIONS-- Leaving after your sedation:

1. During your surgery, you will be given an anesthetic to make you comfortable and free of pain. This will be administered either by a fully-trained Certified Registered Nurse Anesthetist (CRNA), dental anesthesiologist (DMD), or physician (M.D.) anesthesiologist.

2. You are required to have a responsible person transport you from the doctor's office after surgery. Someone must stay with you for the next 24 to 48 hours.

3. You may be unaware of the effects of the anesthetic for 24 to 48 hours, even though you may think you feel fine.

4. During this time, you should not engage in any activity that could be harmful to yourself or others, such as driving, smoking in bed, or using power equipment.

5. You should exercise caution and seek assistance when engaging in activities such as walking, climbing stairs, or going to the bathroom. A responsible person should be readily available to assist you with your needs.

6. You should eat only very light, easily digested foods and liquids for the next 24 hours.

My signature below indicates that I have fully read and understand these post anesthesia instruction and that my anesthesia provider has fully explained any questions that I have regarding my responsibilities related to receiving anesthesia.
